WHEREAS, pursuant to the Auburn City Charter, the Code of Ordinances, and Maine law at 30-A M.R.S. § 4356, the City Council has the authority to enact and extend moratoria to protect the public health, safety, and welfare of the residents of Auburn;

WHEREAS, the City Council finds that the establishment, expansion, or operation of needle exchange services within the City of Auburn have significant public health, safety, and community impacts that require careful study and possible amendment of existing ordinances;

IN CITY COUNCIL

BE IT ORDAINED, that THE CITY OF AUBURN adopts a Temporary Moratorium Ordinance on Rent Increases in Mobile Home Parks as follows:

WHEREAS, the City of Auburn has Mobile Home Parks that provide much-needed housing to individuals at or below median income levels;

WHEREAS, the City of Auburn is committed to the preservation of affordable housing within the City;

WHEREAS, rates for rental of Mobile Home Park lots in the City have been increasing rapidly in recent years;

WHEREAS, such increases are beyond the financial means of many mobile home park lot renters;

WHEREAS, many Mobile Home Park lot renters do not have the means or ability to move their mobile homes to alternate locations, which causes a reduction in their bargaining power and their ability to avoid the impact of rent increases;

WHEREAS, residents, especially senior residents, of mobile home parks are uniquely vulnerable to displacement when significant rent increases occur, and significant rent increases create undue hardship for residents through additional relocation costs, stress, anxiety, and the threat of homelessness due to the lack of alternative affordable housing;

WHEREAS, such lot rental increases may result in some lot renters being evicted and becoming homeless;

WHEREAS, certain Mobile Home Parks may be raising rents in response to the enactment of a State Law, P.L. 2025, ch. 399, An Act to Amend the Laws Governing Manufactured Housing Communities to Prevent Excessive Rent and Fees Increases;

WHEREAS, the City of Auburn does not currently regulate rental amounts or rent increases in Mobile Home Parks to ensure that rents remain affordable; and

WHEREAS, the City of Auburn needs time to study and explore options for addressing rent increases in Mobile Home Parks including but not limited to a potential rent stabilization program to prevent excessive rent increases on Mobile Home Park residents and to ensure that Mobile Home Park owner(s) receive a just and reasonable return on their investment(s).

NOW THEREFORE, the Auburn City Council hereby ordains that the following Temporary Moratorium Ordinance be, and is, enacted:

City Council Ordinance

1. **Moratorium Imposed.** No Mobile Home Park owner or manager may impose or implement an increase of Lot Rent on any person or entity who is a tenant of the Mobile Home Park while this Temporary Moratorium is in effect.

3. **Applicability.** This Temporary Moratorium shall prevent the implementation of any Lot Rent increase while this ordinance is in effect, regardless of whether the Mobile Home Park owner or manager previously informed the tenant of its intent to raise the Lot Rent.
4. **Duration.** This Temporary Moratorium shall become effective immediately upon its final passage by the City Council (“Effective Date”) and shall remain in effect for a period of one hundred eighty (180) days from its Effective Date, unless extended, modified, or repealed by the City Council.
5. **Purpose.** The purpose of this Temporary Moratorium is to allow the City sufficient time to study the causes and impacts of rent increases in Mobile Home Parks and to consider and adopt appropriate amendments to the City’s ordinances.
6. **Enforcement.** This Temporary Moratorium shall be enforced by the City of Auburn City Manager or designee.

DIVISION 2. AGRICULTURE AND RESOURCE PROTECTION DISTRICT

Sec. 60-144. Purpose.

The purposes of this district are to allow for conservation of natural resources and open space land, and to encourage agricultural, forestry, and certain types of recreational uses. It is declared to be in the public interest that these areas should be protected and conserved because of their natural, aesthetic and scenic value, the need to retain and preserve open space lands, their economic contribution to the city, and primarily because these areas are so remote from existing centers of development that any added uncontrolled growth could result in an economic burden on the city and its inhabitants. This section shall be construed so as to effectuate the purposes outline here and to prevent any attempt to establish uses which are inconsistent with these purposes or any attempt to evade the provisions of this division.

(Ord. of 9-21-2009, § 3.31A)

Sec. 60-145. Use regulations.

- (3) *Siting.* All mobile home lots shall be laid out on the proposed subdivision and site plan showing approximate pad locations prior to final approval. On sites/lots which abut rear lot lines, the pads shall be offset as to not obstruct view from the rear portion of each unit. Units/lots that abut public roads shall meet front yard setbacks established by the zone in which the park is proposed.
- (4) *Off-street parking requirements.*
 - a. Off-street parking in the form of parking lots or carports for mobile home parks shall meet the same standards as provided in article V of this chapter.

 - a. All parks shall provide and maintain a buffer strip of 50 feet around the perimeter of the mobile home park. If the per acre density of homes within the mobile home park is at least two times greater than:
 1. The density of residential development on immediately adjacent parcels of land; or
 2. If the immediately adjacent parcels of land are undeveloped, the maximum net residential density permitted by applicable municipal ordinances or state law. This buffer must include either a wooden stockade fence, a chainlink fence with vegetative cover at a minimum height of six feet or the buffer must be heavily vegetated with coniferous trees that at the time of planting must be six feet in height. Heavily vegetated is considered to mean trees planted in a row at least eight feet on center. The buffer vegetation shall not exceed 25 feet in width. Each row shall be offset from the adjacent row. The planning board may

allow a reduction in the buffer width, if the developer can prove that the intent of this provision is not impaired.

- b. Where possible, existing trees shall be preserved, mobile home sites shall be oriented with respect to scenic vistas, natural landscape features, topography and natural drainage areas. Areas such as wetlands shall be preserved in accordance with the Army Corps of Engineers standards.
 - c. Open space, storage or recreation requirements shall not exceed ten percent of the combined area of the individual lots within a mobile home park. If the developer wishes to develop more than ten percent open space, storage and/or recreation area, he may do so.
- (6) *Accessory buildings and utility sheds.*
- a. Utility sheds or accessory buildings will be allowed along the rear portion of the lot and along the rear lot line and shall not exceed two percent of the lot size.
 - b. At least one large storage facility may be required in the park in order to store such items as recreation vehicles, boats, snowmobiles and all other licensed and unlicensed recreation vehicles which might otherwise be stored in a parking space to be utilized by an individual unit. This area shall in total not be less than 50 square feet for each mobile home lot and shall have screening around the storage area on all four sides. Fully enclosed security fencing is encouraged.

- a. Streets shall have a right-of-way of 23 feet in width, and pavement shall be 20 feet in width.
 - b. Intersections proposed as part of the mobile home park which will tie directly into city accepted streets, shall meet minimum intersection geometric design standards as developed by the institute of transportation engineers or the American Association of State Highway and Transportation Officials.
 - c. All street design plans must be stamped and signed by a registered professional engineer.
- (8) *Refuse.* Refuse containers shall be conveniently located throughout the site at a rate of one eight yard garbage container for every 20 mobile home units and shall be fenced in on three sides in order to protect the health and safety of the park residents. This standard is based on a weekly pickup and may be reduced if pick-up is more frequent. In the event lot-to-lot pickup is provided by the park management, this provision shall be waived.
- (9) *Fire hydrants.* Fire hydrants shall be placed at a distance of no more than 1,000 feet apart in order to service the complete mobile home park.
- (10) *Mailboxes.* Must be established in such a manner that at a minimum five vehicles may be able to either park or be queued in order to pick up mail at the proposed mail box location. This location must also be approved in writing by the local postmaster.
- (11) *Design and anchoring of units.* All units being established within an approved mobile home park are subject to all standards noted in section 60-1010(d)(1) through (10).
- (12) *Site plan standards for review.* Provisions of this section are subject to both division 4, subdivision, and division 2, site plan review, of article XVI of this chapter for review.
- (13) *PUDs.* Planned unit developments (PUDs) are encouraged under section 60-385. If a developer proposes a park under the PUD section, then all standards and sections of that article must be met.

Chapter 14 – Business Licenses and Permits]

ARTICLE _____. – SYRINGE SERVICE PROGRAMS

Sec. 1. - Purpose.

The purpose of this article is to protect the public health, safety, and welfare of Auburn residents and visitors by requiring licensure of syringe services programs. The city council finds that appropriate regulation and siting of the operations of syringe services programs, including consideration of the proximity of syringe services program operations to schools, is important in order to protect the public health, safety, and welfare; that with the reasonable and necessary restrictions listed in this ordinance there remain sufficient suitable areas within the city to operate syringe services programs; and that licensing and regulation of syringe services programs is appropriate and consistent with the city's policies and practices to review and license business activities that impact its citizens. For these reasons, the intent of this ordinance is to impose requirements to protect public health, safety, and welfare that are separate from any licensing or certification done at the state level, including pursuant to 10-144 C.M.R. Ch. 252 Syringe Services Programs Rule.

In determining whether the requisite relationship exists, the employer shall consider, at minimum, the following factors when performing an individualized assessment:

 - b. Providing appropriate and/or required training to staff; and
 - c. Posting the certification granted by the Maine CDC in a public area of the licensee.
- M. Prior to distributing syringes to a participant, the licensee shall conduct an individualized assessment of the participant to determine the appropriate

quantity of syringes to be provided. In conducting this assessment, the provider shall consider:

1. the days and hours of operation of the program location(s) and the frequency with which the participant is reasonably able to access the program;
2. the participant's substance(s) of use, recognizing that participants who use certain substances or inject more frequently may require a greater number of syringes to ensure a sterile syringe is available for each injection;
3. the frequency of the participant's visits to the program and the distance or travel burden between the participant's residence or location and the program site; and
4. any special circumstances affecting the participant's ability to access the program on a frequent basis, including but not limited to employment, homelessness or unstable housing, caretaking responsibilities, school attendance, or disability.
5. any other factors reasonably related to reducing the transmission of bloodborne pathogens.

Based on this assessment, the provider shall determine the number of syringes reasonably necessary to meet the participant's needs until the next anticipated point of contact with the program; provided, however, that in no event shall the number of syringes provided to a single participant in a single distribution exceed the limitations established under 10-144 C.M.R. Ch. 252 Syringe Services Programs Rule.

The provider shall document the process for conducting an individualized assessment, and criteria to be used when conducting the assessment, in the provider's operations plan.

N. The licensee shall comply with its own plans, rules, procedures, and protocols including but not limited to the following:

1. All policies, procedures and protocols provided in its most recent license application
2. The needle or syringe disposal plan submitted by the licensee in its application to the Maine CDC, as such plan is defined in 10-144 C.M.R. Ch. 252 Syringe Services Programs Rule, and includes a written plan that describes a coordinated program for the terminal disposal and incineration of used syringes in compliance with the Occupational Safety and Health Administration's guidelines regarding

Occupational Exposure to Bloodborne Pathogens and the Safe Discarding and Containment of Contaminated Sharps under 29 CFR §1910.1030; and,

If any clause, sentence, paragraph, section, article, or part of this article shall be adjudged by any court of competent jurisdiction to be invalid, such judgment shall not affect, impair or invalidate the remainder thereof but shall be confined in its operation to the clause, sentence, paragraph, section, article, or part thereof directly involved in the controversy in which such judgment shall have been rendered.

MOBILE HOME PARK RENT STABILIZATION ORDINANCE

The purpose of this ordinance is to protect residents living in mobile home parks from unreasonable lot rent and fee increases. Mobile home parks represent a source of unsubsidized affordable housing, and mobile home park residents are particularly vulnerable to unreasonable rent and fee increases. This ordinance establishes a review process to ensure that rent and fee increases are reasonably tied to increases in the Consumer Price Index and a mobile home park's increased costs in maintaining and improving the park.

Sec 2.- Definitions

- **Capital Improvement:** Any permanent addition, renovation, or structural improvement to the mobile home park that is properly capitalized under generally accepted accounting principles (GAAP) rather than expensed as a routine operating cost, and that (1) materially extends the useful life of the park or its infrastructure, (2) increases the value or functionality of the park as a whole, or (3) adds a new amenity or facility.

A capital improvement does not include routine maintenance; replacement of individual components due to normal wear and tear; work necessitated, in whole or in material part, by the park owner's failure to perform timely and adequate maintenance; repairs that restore an item to its prior condition without extending its useful life; administrative or overhead expenses; or any cost the mobile home park

owner is already legally obligated to bear as a condition of maintaining a habitable premises under state law or city ordinance.

- **Consumer Price Index (CPI):** “Consumer Price Index” or “CPI” means the Consumer Price Index for All Urban Consumers: Rent of Primary Residence in Northeast (CPI-U RPR Northeast Index), as published by the U.S. Department of Labor, Bureau of Labor Statistics.

- **Mobile Home Park:** “Mobile Home Park” means any parcel(s) of land under single or common ownership or control which contains, or is designed, laid out or adapted to accommodate, two or more mobile homes.

- **Park Owner:** “Park Owner” means a person, corporation or other entity that owns a mobile home park.
- **Rent:** “Rent” means charges to a mobile home resident by a mobile home park for the temporary use of a mobile home park lot.

- **Rent Stabilization Board:** “Rent Stabilization Board” means the municipal body appointed to hear and decide petitions for additional base rent or additional fee increases and other matters.

- E. Greater Base Rent and Additional Fees Increase:** A mobile home park owner may petition the Rent Stabilization Board for approval of an increase in base rent or additional fees in excess of the maximum annual increase to cover (1) the cost of increased operating expenses such as taxes, insurance, utility charges and maintenance costs, and (2) the cost of capital improvements, in excess of those accounted for in the base rent, that directly benefit mobile home residents.
- F. Petition Requirements:** A park owner seeking to impose a base rent increase or additional fees increase greater than the maximum annual increase must submit a petition to the Rent Stabilization Board. The petition must be filed by the August 1 prior to the January 1 effective date of the proposed increase and contain documentation that the increase is necessary to cover increased operating expenses or the cost of eligible capital improvements.
- G. Standards for Petition Review:** A mobile home park owner petitioning for a base rent increase or additional fees increase in excess of the maximum annual increase

based on increased operating expenses must demonstrate to the Rent Stabilization Board that there are actual and reasonable operating expenses in excess of the maximum annual increase allowed that are necessary to maintain the existing level of services to the mobile home park residents or that are necessary to implement an increase in services that will have a direct benefit to the mobile home park residents.

A mobile home park owner petitioning for a base rent increase or additional fees increase in excess of the maximum annual increase based on increased eligible capital expenses must demonstrate to the Rent Stabilization Board (1) that the requested increase is not accounted for in the base rent; (2) that the capital improvement will have a direct benefit to the mobile home park residents; (3) the total capital outlay required for the capital improvement; (4) the useful life of the capital improvement, as determined by generally accepted accounting principles or IRS depreciation schedules; (5) the total rate of return on the capital outlay over the useful life of the improvement calculated as the prevailing yield on ten-year U.S. Treasury securities plus two (2) percentage points, as published by the Federal Reserve at the time petition is filed; (6) the proposed increase in the base rent calculated as the total capital outlay plus the total rate of return on capital divided by the useful life of the capital improvement divided by the number of sites in the mobile home park specified in the park's license issued pursuant to 10 M.R.S. §9082 of the Manufactured Housing Act.

Every final decision of the Rent Stabilization Board shall include written findings of fact.
